

Residential Tire Collection Funding

DKMM will assist municipalities with the logistics and cost of holding a tire collection event for municipal residents. DKMM will coordinate the delivery of a 40 yard open top container for the collection of passenger and light duty tires from residents. After the event DKMM will ensure the collected tires are delivered to the recycling facility.

DKMM will pay the transportation fee of one container and 20% of the tire recycling fees. The municipality will be invoiced for any remaining balance. We encourage, but do not require, you to collect a fee per tire to help cover the cost of the program. We estimate \$2.00 to \$2.50 per tire will cover the recycling fees of passenger and light truck tires. This is an estimate and cannot be guaranteed. If you choose to accept tires on rims, an additional \$5.00 per rim will apply (this is not calculated in the \$2.00- \$2.50 per tire estimate).

If interested, please submit an application for consideration to DKMM. Once approved, DKMM will provide an electronic advertisement to the municipality for use. It will be up to the municipality to advertise the collection event to their residents. The municipality will staff the event and collect the fee as set by the municipality. The municipality will receive an invoice from DKMM within 45 days of the event. Payment will be expected within 30 days from the date of receipt of the invoice.

Fees are based on contracts DKMM has secured with vendors at a discounted rate.

Transportation Fee	\$300	DKMM	100%
Tire recycling fee (passenger & light truck)	\$180/ton	DKMM	20%
		Municipality	80%
Rim Removal fee	\$5/rim	DKMM	20%
		Municipality	80%
Tire Recycling Fee (ag and off-road)	\$300/ton	Municipality	100%
		(Not accepted but if placed in container)	

Things to keep in mind when planning your event.

- Limited funding is available. Approved applications will be funded on a first come, first served basis.
- This is a one-time annual opportunity per municipality.
- Residents only, no businesses.
- Passenger and light truck tires only, no agriculture or off-road tires.
- We estimate that approximately 300 passenger tires will fit in one 40 yd container.
- You can walk into the 40 yd container and will not need to throw tires over the side.
- Limit of 10 tires per trip as outlined by Ohio EPA tire transportation guidelines.
- Municipality must staff the event and neatly stack tires in the provided container.

Questions regarding this program can be directed to

Jenna Hicks, District Director at 740-393-4600 ext. 1

Residential Tire Collection Funding Application

Application must be submitted to DKMM, 117 E. High St, Suite 257, Mt. Vernon, OH 43050 or via email to jhicks@dkmm.org at least 30 days prior to the proposed collection event.

Will you be accepting tires on rims? YES NO

(If no, skip ahead to the Endorsement page.)

If yes, how much will you charge per rim? _____

Endorsement Page

I, the undersigned ***Authorized Official***, hereby authorize the below-named applicant to file a funding application with the Delaware, Knox, Marion, Morrow Solid Waste Management District to acquire funds to hold a residential tire collection. I further certify:

1. That _____ is authorized to enter into an
(municipality applying for funding)

agreement with the Delaware, Knox, Marion, Morrow Solid Waste Management District to hold a residential tire collection event.
2. That by submitting the funding application, the applicant acknowledges that the proposed project requires the applicant to fund 80% of the passenger tire recycling costs and 100% of any ag and off-the-road tires.
3. That the applicant understands the suggested \$2.00 – \$2.50 per tire fee is not guaranteed to cover the full cost of the event and that the applicant has sufficient funds to cover any shortfall.
4. That the applicant will advertise the event to the best of their ability and agrees to provide sufficient staff and or volunteers to hold the event.
5. That the applicant agrees to pay for the proper disposal of any tires that do not fit in the DKMM provided container by calling Mid-Ohio Sanitation, a certified tire transporter, to set up additional containers at applicant's expense. Applicant can choose to transport tires directly to Liberty Tire, LLC. Of Ohio, 2879 Jackson Pike, Grove City, Ohio and pay the designated gate rate fee. If more than ten tires, applicant must obtain a letter from the local health district granting the ability to transport more than the 10-tire transportation limit.
6. That _____ is designated as the applicant's
(Authorized Official's name – type or print)

Authorized Official and is permitted to plan and implement all aspects of the proposed tire collection event as allowed by the Delaware, Knox, Marion, Morrow Solid Waste Management District.
