### Background

The purpose of the enclosed survey is to collect data on the amounts and types of materials commercial and industrial businesses recycled in Ohio in 2023. We are required to document the recycling efforts in our District in an annual report to Ohio EPA and we use the data you report to accomplish this. Your data is crucial in helping us track our progress towards meeting local and state recycling goals and to track the performance of our current programs.

We will compile all the data received and submit the combined total to Ohio EPA in our annual report. Ohio EPA uses the data to calculate recycling rates for the District as well as the entire state of Ohio.

If you have any questions regarding the survey, you can contact me directly at 419-751-2290 or via email at [jhicks@dkmm.org](mailto:jhicks@dkmm.org).

Thank you for your time and participation.

Sincerely,

Jenna Hicks  
District Director
